

Timetables (EN)

I made a little video series for this:

more details here:

Thread

A-Train 9 V5.0 (EN) Timetable tutorial

I got ask recently if I could explain the timetable in A-Train 9 V5.0 for new players.

Took some days but I managed to upload to Youtube:

1. Basic Introduction into time tableing (sorry for low audio volume)
2. Setting a simple time table for 2 trains at one line
3. Adjusting those time tables to start and end day shift in yard
4. Run Around trains - locos switch end of trains
5. Merging and splitting 2 trains so they travel together as one train

(might add more on request but I think I covered almost...
