Installation

Move the in the *.rar-archive enclosed folder *TraminoBS* into the in CiM-root directory contained *Addons*-folder. The cable car should be fully functional.

The path of CiM's root directory is e.g.:

`C:\PROGRAM FILES (X86)\STEAM\STEAMAPPS\COMMON\CITIES IN MOTION\`
`C:\PROGRAM FILES \STEAM\STEAMAPPS\COMMON\CITIES IN MOTION\`
`C:\PROGRAMME\STEAM\STEAMAPPS\COMMON\CITIES IN MOTION\`
`C:\PROGRAM FILES (X86)\CITIES IN MOTION\`
`C:\PROGRAM FILES\CITIES IN MOTION\`
`C:\PROGRAMME\CITIES IN MOTION\`

In case the Addons-folder is not existing, you can create it.

Miscellaneous

The model is likely to be changed or used in other ways as long as you aren't claiming yourself as the author.

Textures created by yourself will be implemented in coming versions if you send them to me.

Thanks to Solaris for providing the blueprints.
